Dear James,

9/15/95

Thank you very much for helping to make our golf outing a success. Although the day did not start out as planned, we were able to re-arrange our plans, and thanks to your special talents, help our Japanese guests enjoy their day on the golf course.

Thank you also for your work on our technical brochure. Not only did it help our guests better understand our products, but numerous accounts in the States who service Japanese customers have requested copies!

I appreciate your hard work and assistance. I hope that we have the opportunity to work together again.

Best regards,

Chris Beebe
